## What Separates A Kitchen from A Mini Kitchen™

■ **KITCHEN VS MINI KITCHEN:** The Main Difference is simple the size of the area to which you are referring to. In short, a MINI KITCHEN is basically a smaller version of a KITCHEN.

■ **A MINI KITCHEN** contains main appliances like a microwave and a small refrigerator and sometimes it might have a sink and/or an oven, but generally, it lacks a stove, a larger refrigerator, and quite a bit less storage space.

It is not just the size of a **MINI KITCHEN** that makes it different from a KITCHEN, it is what the decreased size limits a **MINI KITCHEN** from having. As mentioned, it lacks some common appliances found in a **MINI KITCHEN**.

■ Additionally, however, a **KITCHEN** and a **MINI KITCHEN** are more beneficial in different circumstances.

Note: Above mentioned differences became disappeared at **BILOTTA MINI KITCHEN....**

■ **BILOTTA Magic:** As studied the requirements of users and limitation of spaces in highly populated cities or metros, We made some fantastic Mini Kitchens to meet up the requirements of high urban areas, limited to BHK or Apartments type residencies and living styles.

**SO LET'S BUY A MINI KITCHEN AND ENJOY THE BENEFITS OF FULL KITCHENS, ALMOST.....**

### Environmental Choice

BILOTTA India Develops all Products with sustainability in mind. Our Mini Kitchens are manufactured using materials sourced from Certified Environmental Choice Suppliers across World.

### Certified Environmental Choice

BILOTTA India's Certified Environmental Choice Suppliers are Merino, Green Ply, Jindal Steel, Action Tessa (India) Bestwood, Daiken (New Zealand) Colorado, Timber Products (United States).

### Compact Kitchens for Small Spaces

- ✓ Huge Range of Model, Sizes & Colors.
- ✓ Quality Appliances In Built.
